But before I discuss it, let me share with you the most common mode of transportation in my country, the jeepney. Philippines has pioneered on this kind of vehicle. It is a public form of transporatation which can accomodate 10 to 12 passengers. Like an airplane, jeepney has been of *great help to the lives of many Filipinos. Nowadays, it is exported to other countries.* Now, here are the reasons why airplane has changed people's lives:

I can do a lot of things when I reach my hometown earlier. *I can* bond more with my friends and relatives if I *would* *spent* more time with them.

As compared to travelling by ship, () I have to line up () a long line just to go inside the ship. Sometimes people on the ship tend to be noisy. *It* would not help me to relax while *travelling*.

And finally, they have made traveling *anywhere* possible. I remember, my boss was able to travel on most *part* of the world in a span of one month because he *travelled through* airplane. Without this kind of vehicle, he cannot easily go from one place to *another.* His travel makes his business become *progressive.* He is *surely grateful* to those inventors of () airplane.
